

# Nyosi

WILDLIFE RESERVE

## Factsheet

Nyosi Wildlife Reserve is a pristine nature and wildlife reserve located at the heart of what conservation icon Dr Ian Player once identified as the "new wilderness frontier".

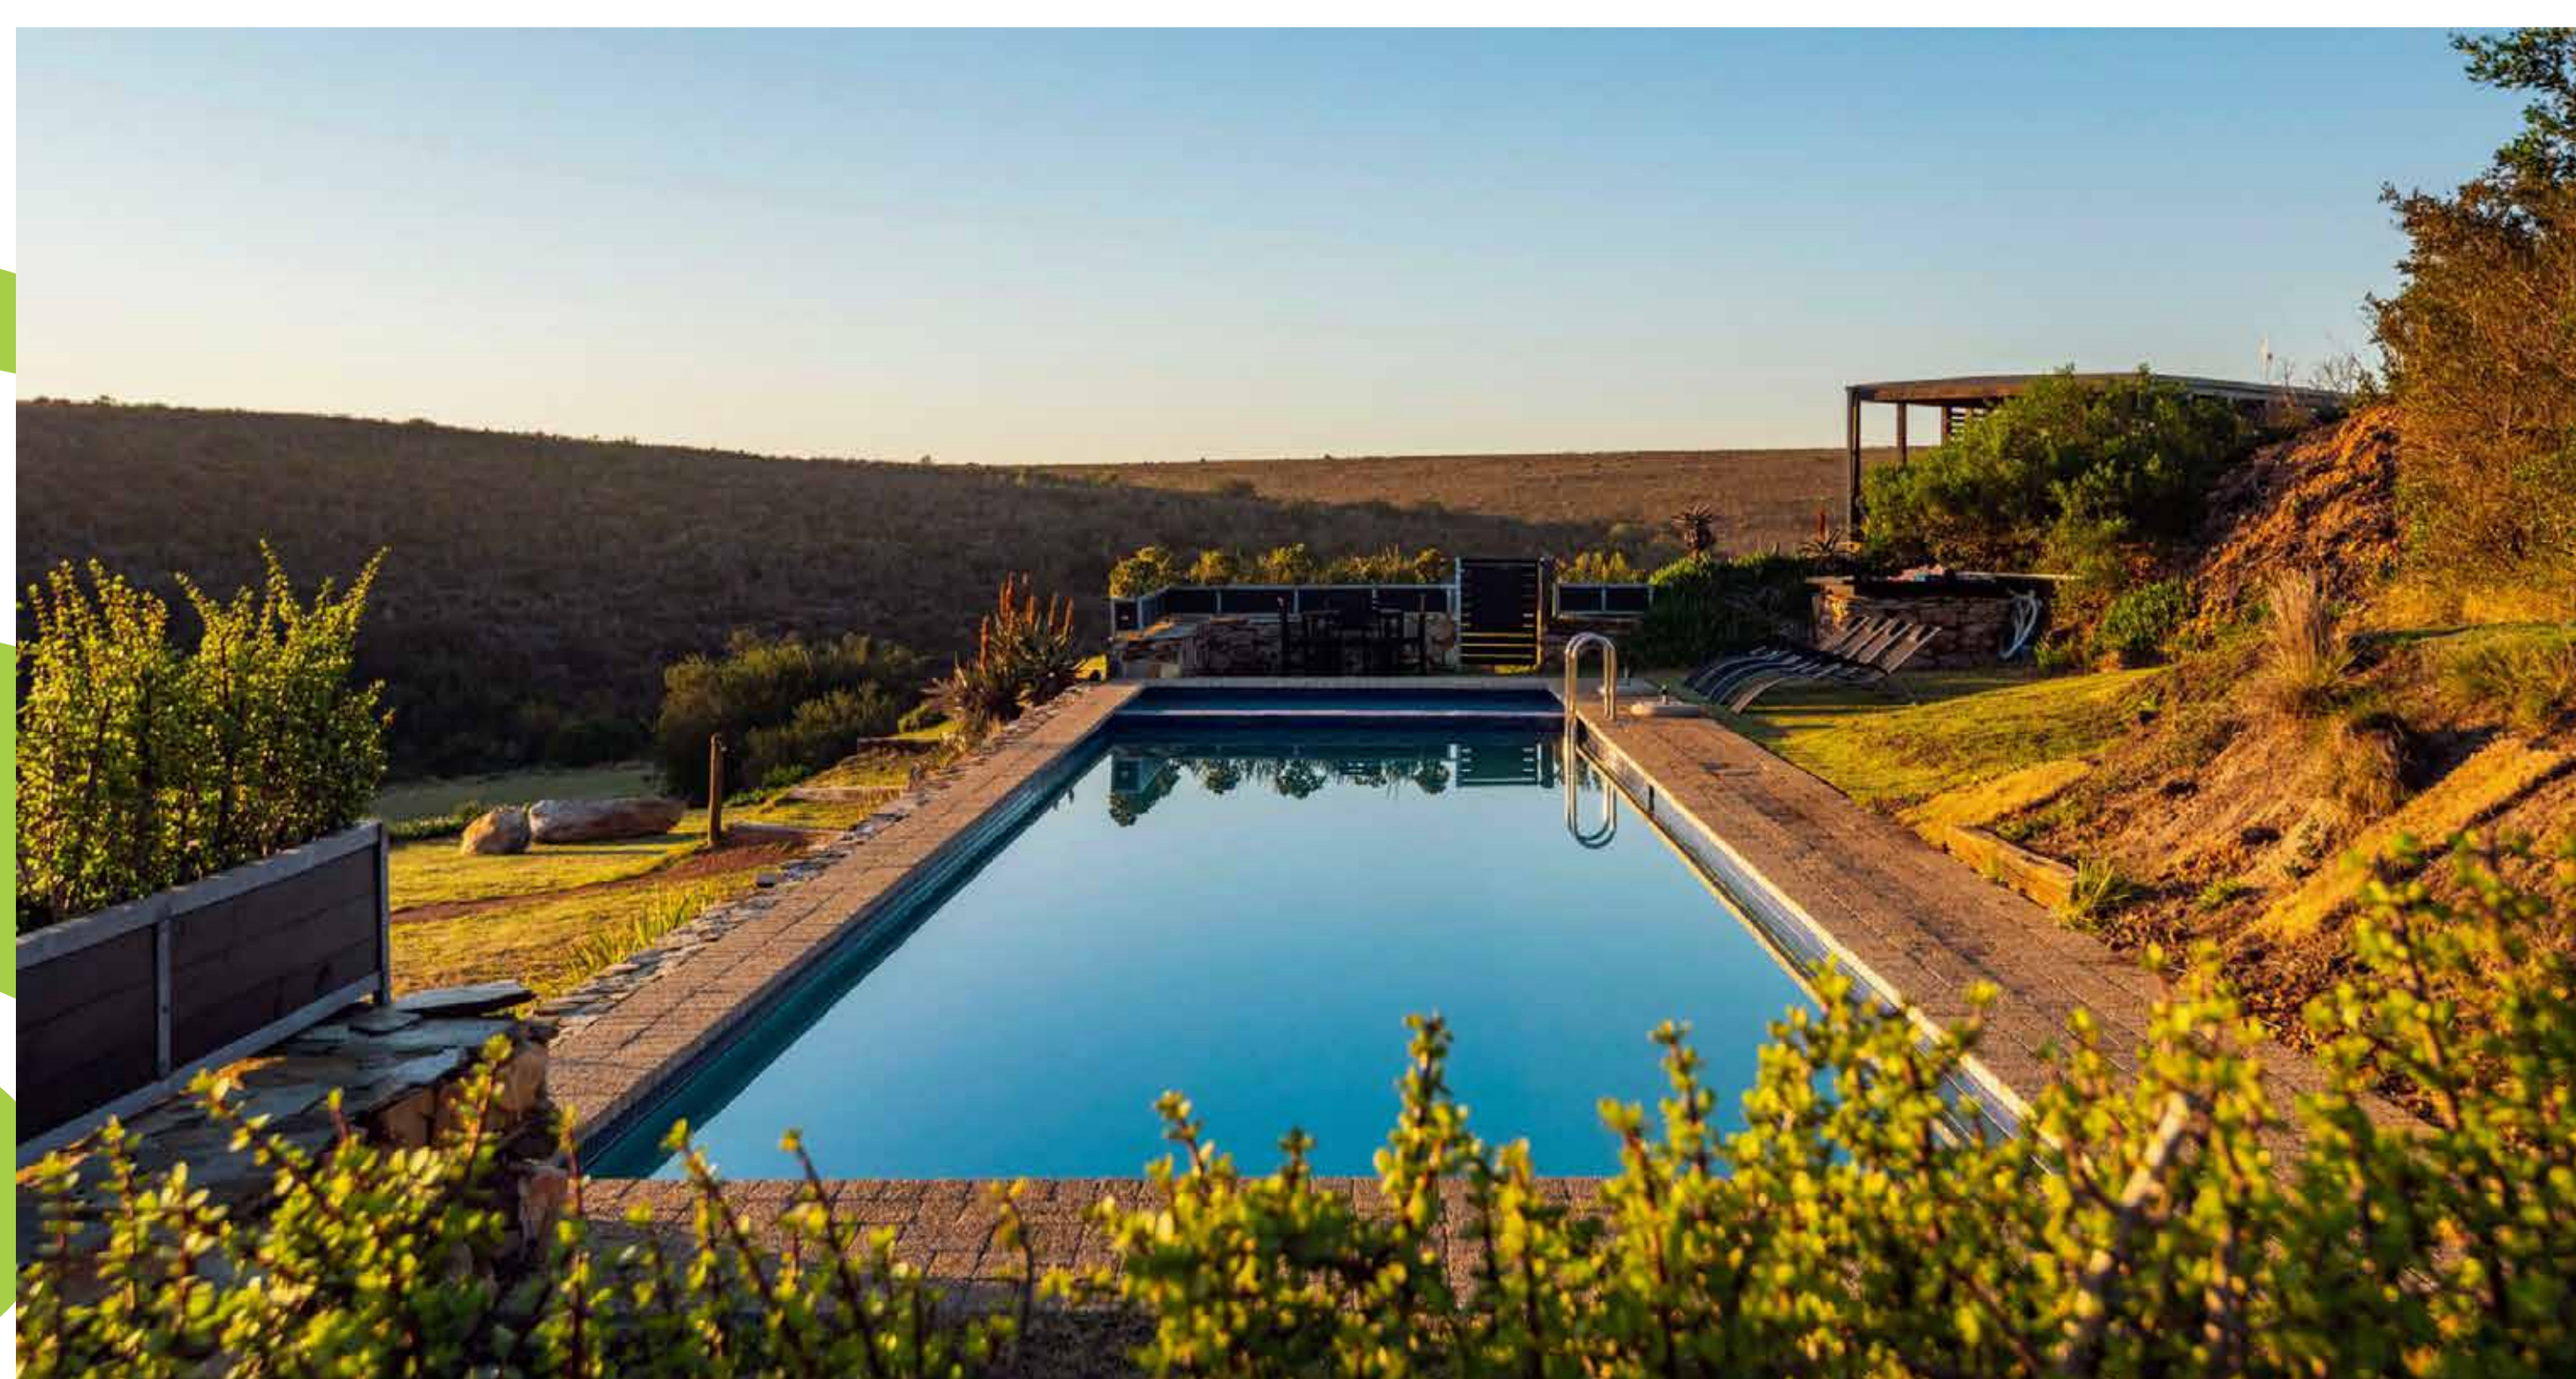

Nestled by urbanisation and set within an expansive 2 500-hectare land parcel, the reserve is made up of five of South Africa's nine indigenous biomes sprawling across rolling and picturesque plains and valleys; lands which host a natural sanctuary to an abundance of wildlife, plains game and birdlife.

Fresh fynbos-scented air, a picture-perfect scenery, and free-roaming wildlife all come together to provide a unique indoor/outdoor experience for visitors of all ages.

Nyosi Wildlife Reserve offers not only the tranquillity brought about by being surrounded by nature, but also a variety of family-friendly entertainment options that allow its guests to relax in a natural and safe environment, and escape from the hustle and bustle of the city life.

### USP's

- Located in Gqeberha (20km from CBD)
